3813 N. CAUSEWAY BLVD.
METAIRIE, LOUISIANA 70002

MAY 12, 2016

TO WHOM IT MAY CONCERN:

RE: SOUTHWEST PASS, RECOMMENDED DRAFT LIMITATION

The Bar Pilots for the Port of New Orleans recommend that vessels should not have a deep draft in fresh water in excess of **Forty-Four feet (44 feet) beginning May 12, 2016 @ 10:30 AM** when transiting the area of the Southwest Pass of the Mississippi River from the Southwest Pass Sea Buoy (Entrance Lighted Whistle Buoy "SW") to Mile 1.5 above Head of Passes in the Mississippi River.

This draft recommendation, which may be increased or decreased at any time as conditions warrant, becomes effective at 1030 hours CST on May 12, 2016 and replaces the draft recommendation that was effective on April 9, 2016.

Nothing in the recommendations of the Bar Pilots should be construed as limiting a pilot in the exercise of his judgment.
