TO WHOM IT MAY CONCERN:

RE: SOUTHWEST PASS, RECOMMENDED DRAFT LIMITATION

The Bar Pilots for the Port of New Orleans recommend that vessels should not have a deep draft in fresh water in excess of **Forty-Five feet (45 feet) beginning August 7, 2015 @ 10:30 AM** when transiting the area of the Southwest Pass of the Mississippi River from the Southwest Pass Sea Buoy (Entrance Lighted Whistle Buoy "SW") to Mile 1.5 above Head of Passes in the Mississippi River.

This draft recommendation, which may be increased or decreased at any time as conditions warrant, becomes effective at 1030 hours CST on August 7, 2015 and replaces the draft recommendation that was effective on June 12, 2015.

Nothing in the recommendations of the Bar Pilots should be construed as limiting a pilot in the exercise of his judgment.
