The Port has the right to seek proof from a shipper or consignor of export cargo that compliance with this requirement has been or is being met.

All export cargo is scheduled with the full understanding and agreement of the shipper/consignee that the vessel fixed or nominated to lift such cargo will be ready, willing and able to do so within cargo free-time rules and regulations applicable under this Tariff. When vessels fail to lift cargo on schedule, the shipper, consignee or vessel, or agents thereof, will be responsible for any resulting demurrage and detention charges and will indemnify and hold harmless the Port against any such demurrage and detention charges and related costs and expenses, including attorney's fees and court costs.

Changes of title for the purpose of invoicing another person or company for any or all charges contained in this Tariff will be subject to the provisions of ITEM 209.

Except as otherwise provided in this Tariff, storage charges will be for the account of the cargo owner.

When a vessel fails to meet the announced date of arrival/sailing, for any reason, storage charges accruing after such date shall be assessed for the account of the vessel until the vessel commences to load.

All storage charges assessed against export or outbound cargo must be paid in full prior to vessel's departure. In the event storage charges are not paid, the Port of Pensacola reserves the right to delay or detain the vessel's departure until said charges are paid.

The Port of Pensacola assumes no responsibility for damage to cargo resulting from hurricanes, floods or other disturbances.

279...SUBSTITUTION OF VESSELS (Effective Sept. 15, 2005)

Once a vessel begins to load her outward cargo, any quantity of such cargo not lifted shall be classified as "shut-out cargo" (reference ITEM 271).

282a...TARIFF - APPLICATION AND INTERPRETATION OF (Effective Sept. 15, 2005)

284...TRAFFIC VIA MOTOR CARRIER (Effective Sept. 15, 2005)

To ensure efficiency in the use of Port facilities shippers/receivers are urged to give 24-hour advance notice of their intention to pick up cargo from or deliver cargo to the Port. The Port reserves the right to postpone the pickup or delivery of cargo until an opportune time in the event of an unscheduled request for pick-up or delivery but the Port will make every reasonable effort to accommodate all pick-up and delivery requests. Unless special arrangements have been approved by the Port Director or his designated representative and the designated cargo handler, pick up and delivery activities should commence not later than 1500 hours, Monday through Friday. The freight handler is responsible for notifying the Port Director or his designated representative for approval prior to the commencement of any activity outside of normal working hours.

The Port of Pensacola assumes no responsibility for demurrage associated with motor carrier pick-up or delivery. ITEM 245 LIABILITY, EXCULPATORY PROVISION, of this Tariff applies to this disclaimer.

285...TRESPASSING (Effective Sept. 15, 2005)

Unless otherwise specified in a contractual agreement between a user of the Port and the Port of Pensacola, the Director of the Port of Pensacola or his designee has the authority to restrict or prohibit any person's access to any portion of Port property.

To enhance security, promote public safety and efficient operations, the Director of the Port of Pensacola may restrict or prohibit any individual's access to any portion of Port property. This includes all land, facilities, buildings and offices; open and covered cargo storage areas; cargo sheds; all docks, including entry and exit ways; all equipment, machinery, railroad right-of-ways and roadways which are owned, controlled or operated by the Port.

Persons entering Port facilities without proper authorization shall be considered trespassers and may be subject to civil or criminal action as appropriate. The Port Director or his designee may initiate the enforcement of the trespass laws of the State of Florida against any person or persons who the Port Director or his designee determines is a threat to the peace, security, public safety or efficient operations of the Port of Pensacola.

286...TUG SERVICE (Effective Sept. 15, 2005)

No vessel shall proceed at a speed which will endanger other vessels or structures. Any official signs indicating limited speeds through critical portions of the waterways shall be strictly obeyed. All applicable Federal, State, and local rules and regulations apply.

288b...VESSEL(S) - TO VACATE (Effective Sept. 15, 2005)

The Port may order any vessel to vacate any berth when the Port deems that the continued presence of such vessel at berth would be a potential hazard to the vessel, the berth, the Port's

facilities, or the rights or property or safety of others, or would unreasonably interfere with the use of the Port's facilities by others. Such situations include, but are not limited to the following: when a potential natural disaster, such as a hurricane, tornado, earthquake or flooding, makes the continued presence of the vessel a threat to the vessel and/or the Port's facilities; when the berth is committed to others under a preferential berth arrangement or other agreement; when the vessel's cargo or other items represent a hazard to other vessels, cargo or facilities; and when the vessel refuses to work continuously to completion of its loading and/or discharge.

The Port shall provide written notice (administrative message, facsimile transmission, etc.) to the vessel's agents, owners, despondent owners and/or charterers of vessels or party arranging for berthing of the vessel advising of the requirements to vacate and referring to this tariff item in the communication. The notice shall state the time that the berth must be vacated and shall be presented at least four hours prior to said time.

If a vessel fails to vacate the berth as ordered, without reasonable excuse, it shall be responsible for any damage or expense which may be incurred by the Port and to others caused by such failure to vacate. The Port shall have the option (but not the duty) to move the vessel to other locations at the risk and expense of the vessel.

If such movement occurs, the vessel shall hold harmless the Port for any damage or liability it may incur as a result of such movement.

Failure to comply with an order to vacate will result in a penalty charge to the vessel of triple the applicable dockage rate. This charge shall not constitute a waiver by the Port of any greater actual damages it may sustain as a result of the vessel's failure or refusal to vacate. Refusal to vacate may result in denial of future berthing privileges.

When a working vessel is required to vacate an assigned berth for the purpose of making way for another vessel which has preferential berthing privileges at such berth and subsequently returns to that berth to complete loading or discharging of cargo, dockage charges will be assessed on the total time the vessel actually occupies that berth and the separate berthings will be treated as one continual berthing.

Written request must be made to and approved by the Port Director prior to any complete shutdown of all propulsion machinery for repairs or otherwise.
